Executive Summary

Silver State Opportunities Fund LLC

Fiscal Year 2015 Report

Executive Summary

Program Background:

Nevada Capital Investment Corporation (“NCIC”) partnered with Hamilton Lane in August of 2012, to provide investment management services through the Silver State Opportunities Fund LLC (“Silver State”, “SSOF” or the “Fund”). The Fund’s primary objective is to generate attractive private equity returns by investing in private equity opportunities in Nevada, and its secondary objective is to help economic activity and employment in the state. In September 2012, Hamilton Lane opened its Nevada office to oversee the management of the Fund; David Helgerson, Miguel Luina, and Anup Sharma serve as the main points of contact from Hamilton Lane. The NCIC has committed \$50 million to the Fund, and in order to maintain alignment with the NCIC, Hamilton Lane has allocated \$0.5 million to invest alongside the NCIC.

Portfolio Activity & Performance⁽¹⁾:

The Fund’s capital deployment is on pace, with approximately 68% (\$34.1 million) of the Fund invested/committed as of June 30, 2015.

The Fund is off to a very strong start both in terms of economic impact to the State and financial performance. By leveraging capital from other limited partners, the Fund, along with its general partners, has invested a total of \$294.7 million⁽²⁾ in twenty Nevada companies to date, which represents 15 times more capital than has been drawn by the Fund. These investments have helped fuel rapid hiring at portfolio companies, which have grown Nevada employment by 30%⁽³⁾ since investment to 1,743 combined employees. The jobs supported by these investments are highly skilled, high paying positions that boast average salaries of \$48,444, 8% higher than the average Nevada wage⁽⁴⁾ and 3% higher than the average national wage⁽⁴⁾ in 2014.

In terms of financial performance, the Fund has already broken through its j-curve (initial underperformance of all private equity funds caused by impact of fees and expenses), which is rare for funds of this age, and is generating a 6.6% net annual return to the State’s Permanent School Fund. On a gross basis, the Fund is generating a 20.8% annual return, 1.2x total value to paid in multiple (“TVPI”). As of June 30, 2015, the NCIC has contributed \$21.5 million and received \$1.3 million in distributions, resulting in \$20.2 million in net contributed capital. Over time, the gap between gross and net returns is expected to narrow as the Fund matures. The attractive performance is driven by yield-producing fund investments and strong performance in the Fund’s co-investment.

⁽¹⁾ As of June 30, 2015

⁽²⁾ Includes capital invested by SSOF and funds that have received capital from SSOF.

⁽³⁾ Headcount growth calculated based on number of full time employees as of 6/30/15 compared to number of stabilized full time employees at portfolio companies as of the first SSOF investment. Stabilization adjustment performed only for companies that were not viable economic entities at time of investment.

Silver State Opportunities Fund LLC

Fiscal Year 2015 Report

The Fund's impact on the State extends well beyond the attractive returns to the Permanent School Fund, employment, and economic activity directly attributable to portfolio companies. The Fund's activities are helping to create a new private equity ecosystem in the State and providing local companies with access to the broader private investment community. Since the program's launch in 2012, four new private equity investment offices have been opened in the State and three new investment professionals are now based in Nevada. The Fund has made over 250 introductions between Nevada-based companies and sources of capital. The State has also benefited from the Silver State Investor Forum created by the Fund which has brought over 70 leading investment managers to the state, giving the local business community a chance to showcase its strengths and improve connections between Nevada-based companies and broader sources of capital. We believe the combination of investing capital directly into the state and developing a network of new investors, who are coming to Nevada to invest in local businesses, is critical to developing a vibrant private capital ecosystem.

Nevada Investments

The SSOF is beginning to gain traction within the state. As the Fund develops, the companies receiving capital from SSOF are expected to continue to increase. As of 6/30/15, the SSOF has invested in twenty Nevada-based companies.

SSOF Nevada-Based Portfolio Companies

The program's impact on the State has been widespread with fund partners opening offices and seeking investments across the North, South and rural regions of the State.

Multiplier Effect

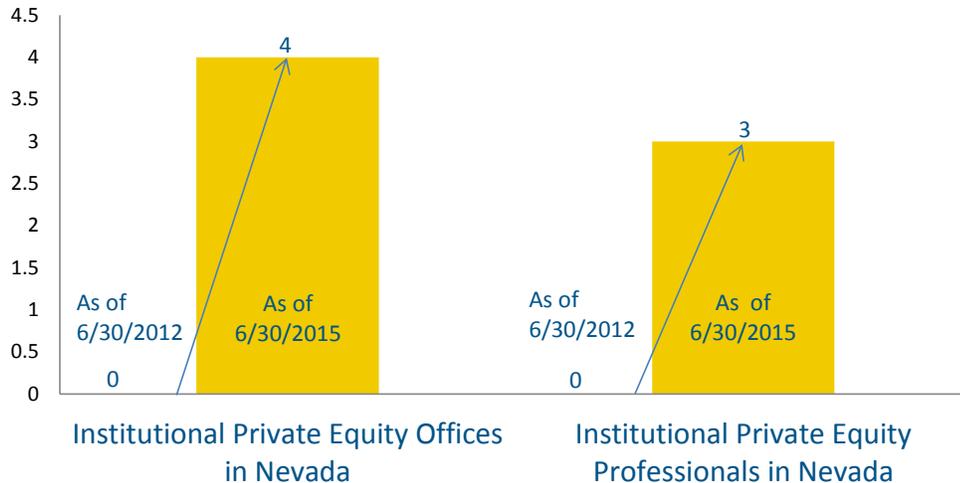

The SSOF has leveraged its capital to have a meaningfully larger impact on Nevada than its fund size. The SSOF and its partners have invested a total of \$294.7 million in 20 Nevada companies as of 6/30/15, which represents over 8x the total capital committed by the Fund. This capital, in turn, has helped support \$1,316.2 million of total capital raised by Nevada companies.

Private Equity Ecosystem

In addition to providing Nevada companies with much-needed capital, the SSOF has begun to lay the groundwork for a thriving private equity ecosystem. Prior to the launch of SSOF, there were no institutional private equity firms located in Nevada. Through the SSOF's work, four new private equity offices have opened in Nevada, creating three new private equity positions within the State.

Additional Outreach

Hamilton Lane's presence and involvement in the Nevada community has created benefits beyond the capital invested by the SSOF. These efforts have helped attract additional capital to the state, educate local market participants, build deeper relationships within the Nevada private equity community and connect local businesses with sources of capital.

Silver State Investor Forum

Hamilton Lane, in partnership with the State Treasurer's Office and the NCIC, has hosted two private equity conferences in Nevada, one in Northern Nevada and one in Southern Nevada.
