Agenda Item #7

For discussion and possible action: on the approval of the State Treasurer's quarterly investment report for the quarter ended December 31, 2024.

Overview

Investment of the State of Nevada General Fund Portfolio is a function performed by the State Treasurer, who, by the provisions of NRS 355, has adopted policies for the prudent and conservative investment of these funds. The General Portfolio encompasses governmental, proprietary, enterprise and fiduciary funds of the State. Investment objectives include safety of principal, portfolio liquidity and market return.

General Portfolio

As of December 31, 2024, the AUM for the General Portfolio was \$8.61 billion (book value) with 89% managed internally and 11% managed by an outside manager. Please see the chart on page 5 for more information on Buckhead Capital Management.

The overall yield to maturity (YTM) as of December 2024, was 3.915% for the General Portfolio. Below is the YTM breakdown by portfolio:

- Internally managed portfolios were 4.403%.
- Buckhead Capital Management portfolio was .15%.

In-House Performance

As of December 31, 2024, the yield on the in-house portion of the General Portfolio was 4.403%. A three-month rolling average of this benchmark for this period was 4.43% with the average days to maturity at 218 days. The average days to maturity for the portfolio was 754 days.

The chart below shows the internally managed portfolio performance against the custom benchmark for the past nine quarters.

Below is a graphical representation of the asset weighted maturities in the General Portfolio as of December 31, 2024, versus one-year prior.

Outside Manager Performance

The annualized performance since inception for period ending December 31, 2024, for Buckhead Capital Management (BCM) is 0.79%*. BCM has been contracted to provide investment management services for securitized assets in the State General Portfolio. Buckhead Capital Management (BCM) began managing \$150 million in September 2020, \$130 million was distributed in June 2021, \$220 million distributed in September 2021, \$200 million in December 2021 and \$240 million was distributed in March 2022, for a total of \$940 million in total distributions. BCM has been assigned the Bloomberg Barclays CMBS AAA Index benchmark.

***BCM inception date was October 2020.**

****No new funding occurred during the previous quarter.**

Fixed Income Market Highlights as of December 31, 2024

- U.S. 10- year Treasury yields rose by 79 basis points during the second quarter of Fiscal Year 2025 and closed the quarter at 4.57%. Over the same period, 1 month T-Bill rates fell 54 basis points from 4.82% to 4.28%.
- The Federal Reserve cut the Fed Funds rate 25bps in December 2024. The Fed Funds Rate closed the December 2024 quarter in the range of 4.25% to 4.5%.

General Portfolio Investment Guidelines

The permissible investments of the General Portfolio include United States Treasury and Agency securities, repurchase agreements, high quality corporate notes and commercial paper, negotiable certificates of deposit, foreign notes, international development notes, asset-backed securities, municipal bonds and banker's acceptances. These securities are diversified to prevent over-concentration in a specific maturity, a specific issuer, or a specific class of securities. The targeted duration of the portfolio is one and a half years, with no security extending longer than ten years.

The State Treasurer maintains a conservative, moderately active investment strategy. Cash flow forecasts are prepared to identify operating cash requirements that can be reasonably anticipated. In order to maintain sufficient liquidity, a portion of the portfolio is structured so that securities mature concurrently with cash needs in the short and medium term. Monies deemed to have a longer investment horizon, are invested to take advantage of longer-term market opportunities.

DRAFT

Local Government Investment Pool (LGIP)

The State of Nevada Local Government Investment Pool (LGIP) was established as an alternative investment program to be utilized by local governments for their public funds. This program's operation is the responsibility of the State Treasurer who, by the provisions of state statute, has adopted guidelines for the prudent investment of these pooled funds. Any local government, as defined by NRS 354.474, may deposit its public monies into this fund for purposes of investment. As of December 31, 2024, there were 105 members of the LGIP, which includes cities, counties, school districts, and various special districts.

The LGIP's foremost investment objectives include safety of principal, portfolio liquidity, and market return, which are consistent with a conservative, short duration portfolio. Local Government Investment Pool (LGIP).

The permissible investments of the LGIP include United States Treasury and Agency securities, repurchase agreements, high quality commercial paper, negotiable certificates of deposit, foreign notes, international development notes, municipal bonds and banker's acceptances. These securities are diversified to prevent over-concentration in a specific maturity, a specific issuer, or a specific class of securities. The average maturity of the portfolio must not exceed 150 days, and no single security may be longer than two years. The State Treasurer maintains a conservative investment strategy, which incorporates the matching of maturing securities to the cash needs of the participants. Approximately 38.1% of the fund matures daily, ensuring sufficient liquidity to meet both anticipated and unanticipated withdrawals.

Additionally, approximately 79% of the fund matures within 90 days, compared to the policy requirement of 50%. This requirement minimizes the risk that the market value of portfolio holdings will fall significantly due to adverse changes in general interest rates. As of December 31, 2024, the total assets under management (AUM) were \$2.653 billion. The yield to maturity as of December 31, 2024, was 4.58% which is 22 basis points above the benchmark yield of 4.36%.

**LGIP PORTFOLIO 12/31/2024
AMORTIZED BOOK VALUE**

Performance

Meeder / FHN began managing the LGIP portfolio in July 2015. As of December 31, 2024, the LGIP's portfolio book yield was 4.58%, and the blended benchmark was 4.36%. The average days to maturity of the LGIP portfolio was 65 days.

* Benchmark is 3-month rolling weighted average of 55% Dealer Commercial Paper 150-Day Index, 30% Agency Note 180 Day Index, and 15% Dreyfus Institutional Preferred Government Money Markey Fund.

**Benchmark was updated July 2020. This graph represents that change.

Administration

The State Treasurer has adopted an Investment Policy relating specifically to the LGIP. The State Board of Finance shall review and approve or disapprove the policies established by the State Treasurer for investment of money of the LGIP at least every four months. The State Treasurer hereby confirms all LGIP investments are in compliance with the Terror-Free Investment Policy and the Divestiture Policy. The State Treasurer may contract with an independent auditor to review LGIP transactions for accuracy and fairness in reporting.
